**INVITATION
 TO ATTEND THE MILITARY ENGINEERING CENTRE OF
 EXCELLENCE (MILENG COE) INDUSTRY DAY 2022**

1st June 2022

1. I am pleased to invite you to participate in our annual MILENG COE Industry Day on the 7th December 2022. We are particularly excited about this year's offering in light of the conduct of the event last year under COVID 19 restrictions. As a vital part of the NATO MILENG calendar, the event offers a unique platform where military subject matter experts from NATO countries, HQs and partner nations have the opportunity to meet companies and enterprises, to share experience and knowledge in order to improve capabilities, products and services within the MILENG fields of expertise. This is an exceptional event that attracts a very special target audience for your products and services in fields related to Mobility (and associated logistics), Counter-Mobility, Survivability, Training and General Engineering Support.

2. The Industry Day 2022 will take place in Ingolstadt, within the barracks of the German Army Engineer School (Pionierkaserne auf der Schanz, Manchinger Strasse 1, 85053 Ingolstadt) on the 7th Dec 2022 between 1000 - 1500 hours and it will be conducted in conjunction with the MILENG COE's Information Exchange Seminar (IES). Approximately 120 representatives from the following entities regularly attend the IES: NATO Nations, NATO Command Structure, NATO Force Structure, NATO Partners, NATO Agencies, NGOs, IOs, GOs, and Academia. Industry Day forms an integrated part of the IES agenda, with the 7th Dec 2022 dedicated to visiting the collocated event. This will allow you to present your products and state of the art technologies to the selected multinational community, as well as to the German Army Engineer School and the 8th German Army Mountain Engineer Battalion.

3. The MILENG COE intends also to host a symposium on the morning of 7th Dec 2022, between 0800 - 0930. Companies are invited to attend the Symposium as visitors. More information and details on the Industry Day 2022 are included in the "Admin Instructions" attached – and are also available on the MILENG COE website <https://milengcoe.org/events/Pages/Industry-Day.aspx> where the registration is active by following the instruction from this link.

4. The registration period starts as at 1st June 2022 and closes as at 28th Oct 2022. If you have any further questions please contact my POC; LTC Paul-Razvan Arsenoiu (OF-4 ROU Army) Tel: +49 841 88660 5200 - Mobile +49 1525 4641325.
